

Bloc premium skylight blinds are unlike anything else on the market. With a range of additional patented design features, they will enhance any roof window.

Simple to order, made to measure and even easier to install, these are the ultimate high performance, durable companion to any of the leading roof window brands. Available in a wide range of colours and patterns, it's never been easier to make your roof windows an integrated element of your home design.

blocblinds

Premium Skylight

Cord free system • 4 screw installation • Compatible with all leading roof window brands • Customised made-to-measure blinds available

Premium Skylight

Bloc Premium Skylight blinds can enhance the performance of all forms of roof windows. Compatible with all major skylight brands, we can also work with you to engineer custom built blinds for your windows.

Installation of the blind couldn't be simpler: Our four screw system means installation is easy and mess free.

We manufacture for the following window types:

VELUX
DAKSTRA
FAKRO
OKPOL
ROOFLITE
ROTO

Bloc blinds incorporate a number of specially developed features that make our skylight blinds superior to others on the market. (1) Rubber seals create a barrier between the blind and the window frame, blocking out light and preventing heat loss. (2) Clips are attached to the fabric

to ensure the blind stays securely within the runners at all times. (3) The fabric is completely enclosed, reducing fading and significantly extending the life of the fabric.

Frame Colour Options

White
RAL 9010 Matt Finish

Cream
LM1284-6 Matt Finish

Anodised Silver
RAL AA15 Natural Finish

Product Specification

Roller Tube	Aluminium
Frame Colour	White / Cream / Anodised Silver
Bottom Detail	Handle colour to match frame
Control	Spring
Fabric Position	Reverse Roll
Sizes	All manufacturers codes.
Manufacturers	Velux, Dakstra, Fakro, Okpol, Roof Lite and Rota

Operation, Care and Maintenance

Operation

Operation of the blind is through a spring system operated by the handle at the bottom of the blind. The blind simply pulls down through the side channels locking whenever the handle is released. The handle is then pushed in towards the window releasing the lock which enables the spring to retract the fabric. It complies fully with all relevant child safety standards.

Care Instructions

We are all very proud of our stunning BlocOut blind range. To keep them looking their best for years to come, always ensure that your BlocOut blinds have been securely fitted, use a synthetic or feather duster and refrain from using soap and water. Should any part of the blind fail contact our dedicated Customer Service team who can help.

Maintenance

All our BlocOut blind components are manufactured using aluminium and plastic. They do not present any corrosion problems in normal environments. The system has been designed for smooth operation, together with rigidity to prolong the window blind's working life. Manufacturing and installation guidelines for the size restrictions for each type of installation are included in this specified brochure.

Child Safety

Being a family run business, we know the importance of safety in a home. That's why every one of our designs is guided by our own 'Safe by Design' principles and fully comply with the latest European directives. Consequently many of our blinds have no cords or chains which could act as a choking hazard and those which are chain operated come with a wall secure system which prevents cords from becoming loose.
