

The Bloc Fabric Changer Roller blind offers the ability to alter the look of your blinds easily and affordably with our simple 'hook-on, hook-off' system.

It might take a vibrant splash of colour to bring your home to life, or maybe it's just a subtle shade of white or cream that will give your windows the sophistication they deserve, but why settle for one or the other?

With the Bloc Fabric Changer you don't have to commit to one style. We stock a full range of colours and fabric designs to give our customers the maximum amount of choice.

Fabric Changer Roller Blind

Easily swap your blind fabric • Complete range of fabric colours and designs to choose from • Made to fit your windows perfectly

Fabric Changer Roller Blind

Our Fabric Changer Roller Blind is made from extremely strong materials and is precision cut to fit your windows exactly. And with the ability to change your fabric on a whim, can provide instant sophistication to your interior space.

All aspects of the blind are given every attention to detail from the stitching of the blind using matching colours to the metal brackets and clutches ensuring that this blind will be held in place and last for years.

Bloc blinds incorporate a number of specially developed features that make our blinds superior to others on the market. (1) All roller blinds are supplied with a Sewn Pocket with a colour matched thread. (2) Extendable plastic ends allow for flexibility when measuring and

a guaranteed perfect fit. (3) The optional Chain Tidy prevents the chain from hanging loose and makes this a safer option for children. Available in white or grey.

Operation, Care and Maintenance

Operation

Operation of the blind is through a chain system from either side of the blind. It complies fully with all relevant child safety standards. Our Fabric Changer Roller blinds come with a wall secure system which prevents chains from becoming loose when not in use.

Care Instructions

We are all very proud of our revolutionary Fabric Changer Blind. To keep your blind and fabrics looking their best for years to come, always ensure that your blinds have been securely fitted. Use a synthetic or feather duster and refrain from using soap and water. Should any part of the blind fail contact our dedicated Customer Service team who can help.

Maintenance

All our BlocOut blind components are manufactured using aluminium and plastic. They do not present any corrosion problems in normal environments. The system has been designed for smooth operation, together with rigidity to prolong the window blind's working life. Manufacturing and installation guidelines for the size restrictions for each type of installation are included in this specified brochure.

Child Safety

It only takes a moment for a child to find themselves in danger when loops or cords are involved. With this blind, we have included a wall secure system that keeps the cord from coming loose and becoming a danger.
